Press Release

For the Milan Design Week at Palazzo Reale:
“ART DÉCO. IL TRIONFO DELLA MODERNITÀ”
IS ENRICHED
BY AN INTERACTIVE LIGHT-AND-SOUND INSTALLATION

“SINFONIA”

CURATED BY
IRIS CERAMICA GROUP
MAIN SPONSOR OF THE EXHIBITION

The installation is open to visitors for the whole Design Week, from 8 to 13 April.

During the Design Week, At Palazzo Reale, in the exhibition “*Art Déco. Il trionfo della modernità*” – for which Iris Ceramica Group is Main Sponsor - an interactive light-and-sound installation will entertain visitors, enriching the museum displays with an original concept: a ***Symphony*** in perfect deco style, yet played with contemporary technology.

Anyone can conduct the orchestra simply by moving their hands, adding more emphasis to the wind or string instruments, changing the effect from jazz to a more classical style, and interpreting the same music track in a completely personal way.

The orchestra plays four tracks that left their mark on the history of music in the 1920s and '30s:

Duke Ellington - *The Mooche*

George Gershwin - *Rhapsody in blue*

J P Johnson - *Charleston*

Vernon Duke - *Autumn In New York*

Yet another opportunity to soak up the atmosphere of 1930s Europe through music.
